SITERIGHT BWF FIRE DOOR INSTALLATION AWARENESS COURSE WITH KEN PARKER (2 DAYS)

PAL Centre of Excellence is pleased to host Ken Parker of Select Safety Services Ltd delivering the BWF 2-Day awareness course.

PAL Centre of Excellence, Tring - HP23 4JY

NOCN (National Open College Network) Group have produced this assured Fire Door installation training course working collaboratively with the British Woodworking Federation. This fire door safety course aims to promote awareness in the construction industry of the factors involved in the appropriate installation of timber fire doors. The outline, structure and content of this course is assured by the NOCN Group.

WHAT'S COVERED?

COURSE CONTENT & OBJECTIVES

- The role of timber fire door assemblies and door sets and why it is important that timber fire doors are installed correctly.
- Understanding how fire door assemblies and door sets work and their place in the wider passive fire protection system.
- Legislation and guidance associated with fire door assemblies, installation and door sets.
- Considerations before installing fire door assemblies and door sets.
- Considerations on completion of the installation of fire door assemblies and door sets.

MULTI-PERSON DISCOUNTS

Your investment in training is as little as £800 per person, however multi-person discounts are available.

IS THIS TRAINING FOR ME?

The course is suitable for anyone involved with fire door specification, installation or maintenance and is the theory element of the NVQ module: **M/616/5829 Installing Fire Resisting Timber Door Assemblies and Doorsets in the Workplace**

Visit www.performanceadhesives.co.uk for more information about the training. For inquiries call 01442-899960 or email info@p-a-l.co.uk

WHAT'S COVERED?

COURSE DELIVERY

- This fire door installation course has a maximum of 15 delegates and will be delivered over 2 days.
- The course is theory-based and will be delivered using a blend of learning techniques, focused on a course presentation in the form of a PowerPoint and the use of group interactive tasks and discussion. A supporting fire door installation course book will be issued to each course delegate on their arrival.

COURSE ASSESSMENT

- As this fire door course is designed to provide awareness to the delegates, the final assessment is not an examination paper. The assessment is designed to allow the tutor to gauge the level of understanding attained by the delegates on fire door installation. Each delegate must complete the multiple-choice assessment. The group will go through the questions to ensure that each delegate has understood full coverage of the course.
- Certification is then completed by the tutor once the delegates have completed the course.

QUALITY ASSURANCE

- The quality assurance requirements of SiteRight Assured course delivery can be found within the SiteRight assured course quality manual, available on the NOCN website.

CERTIFICATE OF ACHIEVEMENT

A Certificate of Achievement will be awarded upon completion of the course. The NHBC recommends that contractors working on new build housing projects should have completed a 2-day course such as this one.
